

## About Us

UNIMETRY TECHNOLOGY, we are the Leading engineering service & design solution providers to the industry in North India. With over a period of 5 years of experience in supplying & handholding the industry to adopt 3D Design, Design Automation, Validation & Manufacturing technologies, UNIMETRY TECHNOLOGY today is the most respected & trusted name in the industry. Through UNIMETRY TECHNOLOGY we intend to employ highly competent and competitive engineers and professionals to assure that our clients get the best output for each of their projects.

## Our Mission

"To exceed our customers' expectations with innovative assurance, designing, testing, and engineering services unconditional support by allotting skilled manpower at all times."

# UNIMETRY TECHNOLOGY

Design Process Consultants

## Engineering Services

- Piping Engineering (Design & Detail engineering services)
- Analysis / Simulations (Piping Stress Analysis, Piping support, static & dynamic analysis)
- 3D Modelling , Isometrics, General Arrangement Drawing, BOQ Estimation, Pipe sizing, Thickness and pressure drop calculation. IBR calculation and documentation.
- Pipe support selection & modelling, 2D drawing preparation and BOQ estimation.

## Our Market

### Area of Expertise

- Power & Energy Sector
- Oil & Gas Industries
- Cryogenic Piping
- Chemical & Fertilizer Piping

### Software Proficiency

- PDS, SP3D, PDMS
- Caesar II
- Auto Cad, MicroStation
- Pelican forge
- Navis Work

## Our Team

15 years of experience in engineering services across various multinational companies such as Siemens, Toshiba, Reliance, PDIL and tractebel
